Projects

- [Personal Portfolio Website](#)
- Fruit Freshness Detection Device (In Progress)
- Recruitment Portal
- [YouTube Playlist Duration Estimator](#)
- [Project cul – a pip for C/C++ \(Fun Project\)](#)

EXTRA-CURRICULAR ACTIVITIES

- As an AI/ML enthusiast, I am currently working on the above-mentioned fruit freshness detection project which is guided by our faculty coordinator.
- I was also a part of GDSC VGEC Chapter as a Mentee.

LEADERSHIP

- I am currently the leader of my team, where we are working together on the above-mentioned fruit freshness detection project.
- I have also been a leader of my hackathon team where I helped my team to create a solid backend for our project of recruitment portal.
